

Internship – Data analyst

Crime&tech srl (www.crimetech.it) is the spin-off company of the Università Cattolica del Sacro Cuore and Transcrime. It develops analyses, models and tools to assess, prevent and reduce security and crime risks.

We are looking for interns/stagiaire (also in the framework of University internship programmes) with the following skills:

- At least 1st level degree (Laurea triennale/BA equivalent) in Economics, Statistics, Social Sciences or Criminology;
- Very good quantitative skills;
- Ability to use MS Excel, Access and statistical analysis software (SPSS, Stata or R are first best);
- English speaking (a second and third language would be a plus);
- Ability to cooperate with colleagues;
- Precision, punctuality, curiosity.

Interns will be asked to provide support to data analysis activities in a number of Crime&tech projects in areas related to organised crime, financial crime, retail crime and illicit markets.

Monthly salary is foreseen.

Expected start: mid-November 2018 (to be discussed with the selected intern).

Expected duration: 4 months

The role is based in Milan.

Interested candidates should email info@crimetech.it attaching their CV and a cover letter in English.
